Sava Fedorenko

Student

I am an ambitious student with a deep interest in Data Science and machine learning. I have a strong background in C/C + + programming and actively study Python and key libraries for data analysis. I worked in a team on various projects, which helped me develop teamwork and problem-solving skills. I am looking for an opportunity to apply my knowledge and develop in a professional environment where I can contribute to the development of innovative solutions based on data.

📍 Kharkiv, Ukraine

SKILLS

Python | C/C++

NumPy | Matplotlib

SoftSkills | SQL

Pandas

linear regression

INTERESTS

ML/AI

EDUCATION

Computer Science. Artificial Intelligence
NTU HPI

09/2023 - 06/2027

Courses

- Johns Hopkins University · Course The Data Scientist's Toolbox
- Probability & Statistics for Machine Learning & Data Science by DeepLearning.AI (in process)
- SQL for Data Science University of California, Davis (in process)
- Johns Hopkins University · Course The Data Scientist's (in process)

PRACTICE EXPERIENCE

BackEnd Developrer and Leed
Practice program innovation campus. Marathon in C programming language. Developing a game for Linux with a graphical interface.

01/2024 - 03/2024

Achievements

- Led the team to maintain integrity and successfully completed the project.
- Secured second place in the competition, even though only two out of six team members had programming experience before the development started.
